

TWO CABINETS ARE CALLED.

French and British Ministers to Hold Important Meetings To-Morrow.

SUGGESTION OF A WAR SCARE.

Madagascar Despatch Says the Island Ports Have Been Blockaded.

THE REPORT DENIED AT PARIS.

Safety of the British Subjects in China Is Also to Be Considered.

(By Associated Press.)

ANANTARIVO, Madagascar, Oct. 2.—A blockade of the ports of the Island of Madagascar has been proclaimed by France.

The Resident General has gone to Tamatave. He has been instructed to take measures to protect the colonists in the event of war.

Denied at Paris.

PARIS, Oct. 2.—The Minister of Foreign Affairs, M. Hanotaux, denies that a blockade of the Island of Madagascar has as yet been proclaimed by France.

The Minister of Marine, M. Felix Faure, declares that before a blockade of the Island of Madagascar would be declared the European powers would be informed of the intention of France to take such a step.

A meeting of the French Cabinet has been called for to-morrow.

BRITISH OFFICIALS DENY.

But the London Press Believes that the Trouble is in Madagascar.

(By Associated Press.)

LONDON, Oct. 2.—The officials of the Foreign Office deny that the Cabinet Council summoned for to-morrow is due to a hitch in the negotiations with France in regard to Madagascar.

They add that the hasty summoning of the Ministers was due to the necessity of discussing several important international questions, one of the chief subjects to be brought up being the safety of British subjects resident in China.

A despatch was received at the Foreign Office to-day from the British Consul at Peking, stating that he was making arrangements to insure the safety of the British residents at the Chinese capital.

All the afternoon papers gravely discuss the hasty summoning of a Cabinet Council Thursday (to-morrow), and it is generally accepted as being connected with some serious difficulty with France over the Madagascar dispute.

The Liberal organ, the Westminster Gazette, handles the subject very tenderly, and is evidently anxious not to excite public opinion and thereby embarrass the Government.

On the other hand, the Conservative Northamptonshire discusses the matter more heartily, and says that the Government are encroaching upon British rights.

The Pall Mall Gazette says: "A crisis which necessitates the convening of a Cabinet Council must be very sudden, as the Ministers were dispersed on their holidays. It is quite possible, however, that propositions have been made to settle the various differences. But, while we gladly recognize that the incident admits of favorable interpretation, it is idle to ignore that it is quite possible that the Cabinet has been summoned to discuss a new and unexpected cause of friction with France."

The Gazette then refers to an article printed to-day in the Politique Coloniale, of Paris, which reflects the views of the Minister of the Colonies, M. Delcasse, and which gives, exclusive of the questions of Egypt and Madagascar, a list of eleven outstanding difficulties between France and England, connected with frontier and similar disputes in various African colonies.

The Politique Coloniale says that many of these have practically been settled and that none of them would justify a rupture unless one country was bent upon picking a quarrel with the other, which, the paper adds, is not the case.

The Pall Mall Gazette, in spite of this, says that the article in the Politique Coloniale is unfriendly to "the verge of discourtesy," adding:

"And if it reflects the spirit in which the French Minister intend to discuss the difficulties with England, we may prepare for troublesome times. We do not wish to quarrel with France, but, on the other hand, we are indisposed to permit trespassing upon our unquestioned rights. The bullying spirit which tells Frenchmen that they have only to

THE MADAGASCAR TROUBLE.

France Trying to Establish a Complete Protectorate.

The dispute between England and France in regard to Madagascar is one of long standing. Madagascar is a large island separated from the southeastern portion of Africa by the Mozambique Channel. It is now virtually under a French Protectorate, although it is claimed in England that at least one-seventh of the island is held by British capital.

The French Embassy in London recently answered a communication from the Madagascar Consul in London by a formal statement that, officially, there is no longer such a person as a London Madagascar Consul, as the agents of France in various countries represent the French Government.

Early last month the French Government, evidently determined upon a decided action in regard to Madagascar, probably believing that the hands of the British were becoming weaker, brought about through the war between China and Japan.

M. de Villeroy was sent on a special mission to Madagascar, concerning which the following statement was made:

"He will first demand a revision of the treaty of 1893, and will then ask that the territory of France at Diego Suarez be extended to include the western side of Madagascar, and that Majunga and Nosy Be, on the west coast, and Port Dauphin, Tamatave, Manakara, and Antananarivo, on the east coast, be placed under the French flag."

The French naval squadron off the coast of Africa was recently considerably reinforced with the view of blockading Madagascar should the Hovas refuse France's ultimatum.

In a word, the effectual application of the Protectorate regime, which had been nothing but a sham, was demanded by the Hovas. The Hovas did not give their satisfaction, M. de Villeroy was to withdraw to the west coast of the island, and the commander of that squadron was then to open the sealed instructions sent him.

SUGAR IS GOING UP AGAIN.

Chicago Gas Weaker, but Prices Are Generally Firm.

A drop of 3-8 per cent. in British consols to 101 3/4, coincident with the calling of an extra meeting of the English Cabinet, gave Wall street something new to talk about this morning.

The war scare was, in fact, the sole theme of discussion, and diverse opinions were expressed as to the probable effect on the values of American securities. International stocks were unfavorably influenced for a short time, but the bulls did not appear to be greatly disturbed, and when Sugar moved up rapidly from 8 1/4 to 8 1/2 prices were advanced all around.

The rise was checked by a sudden onslaught upon Chicago Gas, which broke from 71 1/4 to 68 3/4, many stop orders being caught on the way down. Sugar, on the other hand, continued to advance, yielding a little in sympathy.
